FIRED EARTH™

THE FUTURE OF PAINT TODAY

Textured product range:

Please note colours are represented as accurately as print processes allow. The final painted colours may depend on surface conditions, previous surface treatments and the effect of light and shade. Try a test area first. To ensure that colours are consistent check that batch numbers correspond. The colours depicted in the photographs may vary from the actual paint colour due the effect of light, the printing process, ink limitations and paper finishes. Please consult the Fired Earth in-store paint boards. **E&OE**
